**Date Published:** February 05, 2016

**Last Updated:** February 05, 2016

**Question:** When will DHS grant access to the Chemical Security Assessment Tool (CSAT) Personnel Surety Program application if a facility chooses to meet Risk-Based Performance Standard (RBPS) 12(iv) by selecting Option 1 or Option 2 in its Site Security Plan (SSP)/Alternative Security Program (ASP)?

**Answer:** The Department will grant access to the CSAT Personnel Surety Program application when the Department approves an SSP/ASP without an RBPS 12(iv) condition. At that time, the facility will be informed it may begin submitting information about affected individuals.
